DESIGN³

CUBE SAVOGNIN offers a unique combination of design and functionality. Additional living space is created outside the rooms because of the open and urbane, loft-like architecture, and the Chill Out Lounges on each floor. The individual floors are connected with each other by means of Gateways – practical ramps which facilitate the transport of your sports equipment.

Illuminated columns, glass, concrete, plasma screens and highly fashionable furniture create a stylish ambience. The innovative colour and light concept produces a comfortable and relaxed atmosphere.

IT'S YOUR HOMEBASE
